

Polaris™

Auto Magnetic Slider System

The Polaris™ Auto Magnetic Slider door system works without the traditional sliding door components. Thus the size of the track is reduced to 2 3/8" x 2 9/16", creating a very slim profile. The new technology which creates the slim profile also makes installation as easy as 'plug and play'. Peripherals which may be connected to include but are not limited to:

- motion sensors
- keypads
- push buttons
- remote control

Available Glazing: 3/8" Clear Tempered, 3/8" Laminated Glass, 1/2" Clear Tempered, 9/16" Laminated Glass, Laminated LCD privacy glazing
